

KENDA

Kenda is a name people trust for tires; From wheels on a classic moped to tires on a Maxiscooter, Kenda will be there for your tire needs. Since 1962, Kenda has been offering high-quality rubber products for cars, bicycles, motorcycles, ATVs, etc. Operating in Asia, North America, and Europe, Kenda distributes its products in over 150 countries and employs more than 10,000 people.

KENDA

Kenda Tires supplies high quality tires and because of this they supply the original tires for a number of brands, among which Piaggio and Kymco scooters. These tires are ideal replacements for original tires, and often have a better quality than the original.

Kenda produces from seven factories and all seven of our factories have acquired ISO 9001 certification; even so, Kenda has continually upgraded its manufacturing equipment in order to improve production efficiency so we may offer the most cost competitive products and pass the savings onto our consumer.

UNDER DEVELOPMENT

KENDA

RAIN COMPOUND

**SIDE RAIN
PATTERN**

K6011

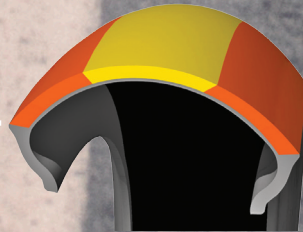

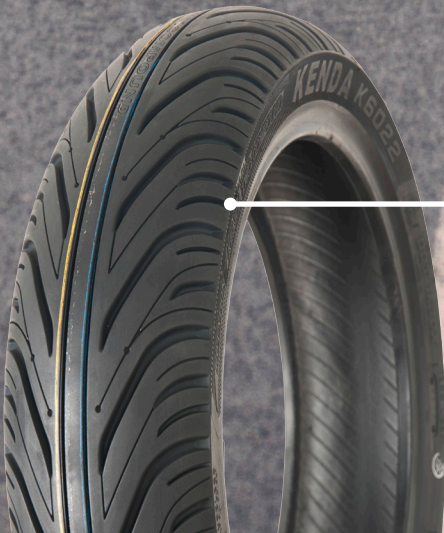

- Compound enhancement for better grip on dry and wet ground.
- Reinforced tire structure to provide better breaking.
- Latest pattern design 3D analyzed to prevent uneven wearing of the tire.
- Central groove inspired by lightning, suitable for both front and rear use.
- Wavy pattern design on the tire shoulder prevents from slippery road condition.

DUAL COMPOUND

**HIGH
ENDURANCE**

K6022

- Dual compound tire provides you different choice!
- High grip compound on shoulder area provides more stability on cornering.
- Endurance compound on the central of tread supports longer riding mileage than other dual compound tires on the market.

KENDA

4 SEASONS

K415

15% dirt / 85% road

The Kenda K415 all-weather tires is a must for every scooter, at any season or weather conditions without sacrificing the way you choose to move. This high quality all-weather tire (K415) is the ideal companion for any time of year. The Profile and the rubber compound has been designed to use in both warm as in cold outside temperatures. Thanks to the tire structure and slightly softer profile the tyre has a very good wet driving behaviour. Thanks to the M + S ID This tire can also be used in winter. Very usefull for all terrain scooter.

K451

60% offroad / 40% road

K761

Leaning more towards street riding than trail riding? The K761 Dual Sport is the tire for you.

30% dirt / 70% road

Chunky, aggressive design for street-oriented dual-sports
Original equipment tires on models from several major manufacturers
Gravel and fire road performance while maintaining excellent street manners
Long tread life for one of the best value motorcycle tires on the market

SNOWTIRE

K701

Winter tires are tires designed for use in wintry conditions. Winter tires have a tread design with larger gaps than those on "normal" tires, increasing traction during winter. Tires designed for winter conditions are optimized to drive at temperatures below 7 °C.

- Unique compound for cold weather traction.
- Tread and sipes designed for improved traction in wintry conditions.
- DOT and E-Mark Compliant

SCOOTER ROAD USE

K413

If you're looking for the best possible scooter tires for your next challenge or excursion, Kenda has the ones you want (and need). Our entire family of moped tires and scooter tires was designed for your every adventure and the K413 is no exception, with a 4 ply rating for the durability and resistance. These tires were made for performance minded machines. The race inspired tread pattern will give you maximum stability and agility while the sipes will provide you with the traction you want when the roads get damp. Whether you're on your daily commute or a weekend ride, the K413 front and rear scooter tires are the way to travel.

- Race-inspired tread pattern
- Designed for performance-minded machines
- Specially grooved to displace water on road

OFFROAD

K270

The K270 Dual Sport is great for replacing your Original Equipment trail tire. It provides the perfect balance between a smooth ride on the road and great traction on the trails.

Perfect replacement for OEM dual sport tires
DOT approved (40%/60% dirt/road application)
40 and 6-ply rated casings
Tube type

K761

Leaning more towards street riding than trail riding? The K761 Dual Sport is the tire for you.

30% dirt / 70% road
Chunky, aggressive design for street-oriented dual-sports
Original equipment tires on models from several major manufacturers
Gravel and fire road performance while maintaining excellent street manners
Long tread life for one of the best value motorcycle tires on the market

OFFROAD

UNDER DEVELOPMENT

KENDA

CROSS

K760

The legendary K760 continues to be known for great value. Hit the trail and don't be afraid to take it to the road between trails.

- Tall aggressive knobs designed for varying terrain
- DOT approved (90%/10% dirt/road application)
- Durable compound for extended tread life
- Classic design at affordable price
- Tube type

K774

Climb like a mountain goat with the K774!

- Designed for Endurocross and extreme enduro-type conditions.
- Super-Soft and flexible rubber compound for maximum bump absorption and terrain compliance for obstacles like rock gardens and log crossings
- High wet-traction compound developed by top pro Endurocross riders
- Open aggressive drive pattern for max grip and cleanout
- Shoulder knob pattern designed for large contact patch and support for soft compound during cornering
- Ultra soft casing for maximum terrain adaptation
- Made for low speed riding only (less than 40 mph recommended)
